

A Guide to 2011-2012 FRHSD Attendance Boundary

Which High School Will My Child Attend?

FRHSD enrollments have begun to stabilize for the first time in several years. In order to maintain quality education, equitable class size and school safety, it is sometimes necessary to move attendance boundaries. It is important to note that because we are a regional high school district, students do not always attend their home town school or the school that may be closest to their home. The Board of Education monitors student enrollments on an annual basis and may make minor adjustments to the attendance boundaries as the need arises. The following is a list of streets, by municipality, that are assigned to a Freehold Regional District high school outside of their hometown. An existing street may have been inadvertently omitted from the following list. If your street is not listed, but you live next to or within an attendance boundary noted, or if your school pass information conflicts with the following information, please call the Transportation Department at 732-431-8368 for high school attendance confirmation. For additional information, call the Office of Communications and District Projects at 732-792-7300 ext. 8542. **All attendance boundary changes affect incoming ninth graders only. No students currently enrolled in a high school are moved. However, if a student moves from one attendance area to another within the district, that student must be transferred to the high school assigned to that new attendance area.**
