July 1, 2019

Dear Freehold Township High School Students and Families,

It is with tremendous enthusiasm that I introduce myself as the newly appointed Principal of Freehold Township High School. I am looking forward to working with the FTHS faculty and staff to provide your children with an outstanding educational experience.

I am excited to work together with all families to continue the thriving community partnerships at FTHS. The home – school connection and vibrant community partnerships are critical factors in promoting student achievement.

We will build upon our foundations of academic excellence while continuing to expand educational opportunities for all students.

Currently, I am in my nineteenth year as an educator. I have been a teacher, a coach, a middle school assistant principal as well as a high school assistant principal, and a principal. I received my Bachelor's Degree in Physical Education at Salisbury University and both my Masters Degree and Doctorate Degree in School Administration from Widener University.

My greatest initiative is to provide the leadership necessary to facilitate a 21st century learning environment. The educational program must be academically challenging, engaging, and promote the exploration of new ideas. I will strive to provide expanded educational opportunities that will in turn help our students to acquire the skills necessary to become productive members of a global society.

Parents, faculty members, community members, and administrators all play an integral role in encouraging students to be life-long learners. Through a close and collegial partnership, I am confident that we can provide our students with a great place to learn and grow.

I look forward to working with each and every one of you to help our students realize their full potential. As principal, my door is always open and I welcome your input.

I will be hosting a "Meet the Principal" night in September. Please check the high school website for more information.

Sincerely,

Alicia K. Scelso, Ed.D.
