Course Philosophy

Each student is provided with opportunities to explore the following health related areas such as (communication, decision making, understanding relationships, safety, sexuality, nutrition and health care) that will enable them to become lifelong learners and assist them in making good choices about healthy living. Effective healthy lifestyle choices encourages the involvement and communication between student’s friends their families.

Students with disabilities are able to work toward the New Jersey Core Curriculum Content Standard goals. To appropriately address the educational needs of all students, differentiated instructional techniques have been incorporated into the curriculum to meet standard goals. The differentiated techniques permit instruction to meet the goals and objectives of the Individual Education Plan.

Course Description

The Adaptive Health course is an ongoing class for students in grades 9-12. The course provides students with the skills needed to make decisions that will affect their life today and in the future. Topics include Personal Hygiene, Proper Nutrition, Decision Making Skills, Relationships, Sexuality, Safety, Drugs, Alcohol, and Medicines and Health Care.

Unit #7: Drugs, Alcohol, and Medicines

**Enduring Understanding:** Alcohol, tobacco and other drugs have a variety of harmful effects on the human body.

**Essential Questions:** Why do people choose to use alcohol, tobacco and other drugs when they are aware of the detrimental effects?
- How to make the “right” decisions in the face of peer, media and other pressures?

**Unit Goal:** Students will apply information about alcohol, tobacco, other drugs and medicines to make decisions that support a healthy, active lifestyle.

**Duration of Unit:** Ongoing

**NJCCCS:** 2.3 A 1-3 B1 B3 C1

Unit #8: Healthcare  

**Enduring Understanding:** There are numerous health and fitness programs available that provide a variety of services; not all are equal.  
**Essential Question:** What should you know about health care facilities and health and fitness services?  
**Unit Goals:** Students will demonstrate an understanding of the health care industry.  
Students will discuss and compare public health policy and government regulation on current and emerging health problems.  
Students will research types of fitness facility and identify the fitness facility that best meets their own needs.  

**Duration of Unit:** ongoing  
**NJCCCS:** 2.2 E 7, 2.2 F 1-2
