Freehold Regional High School District
Board of Education
11 Pine Street
Englishtown, New Jersey 07726

Dear Central Office Community,

Our school system is committed to protecting student, teacher and staff health. To protect our community and be in compliance with the Department of Education regulations, the Freehold Regional High School District tested our schools' drinking water for lead.

Results of our Testing

Following instructions given in technical guidance developed by the New Jersey Department of Environmental Protection, we identified and tested all drinking water and food preparation outlets. Of the three samples taken, all tested below the lead action level established by the United States Environmental Protection Agency for lead in drinking water (15 µg/l [ppb]).

Additional Resources

- A copy of the test results is available for inspection by the public, including students, teachers, other school personnel and parents, and can be viewed between the hours of 8:30 a.m. and 4:00 p.m. at the district's administrative office located at the above listed address. The results are also posted on our website at www.frhsd.com.
- The attached **Drinking Water Facts: Lead** flyer issued by the New Jersey Department of Health provides an additional information on lead in drinking water.
- United States Environmental Protection Agency – www.epa.gov/lead
