

Get Ready for the FRHSD College Fair!

Students: You have the option to go to www.STRIVEFAIR.com and register so you can easily provide your information to the colleges you meet at the fair.

When you register for free, you get a barcode that colleges can scan at the fair to get your information. The colleges you're interested in will start sending you information about their school, the application process, financial aid, and important deadlines.

Step 1

Go to www.STRIVEFAIR.com or use Snapchat to snap this code: Fill out the registration form to get a barcode. Register for "Freehold Regional District" fair on October 30, 2018.

A reminder barcode will also be sent to you two hours before the fair.

Step 2

At the fair, show this barcode to colleges. They'll scan it and get your information. You can show the barcode on your phone or print the code on a piece of paper. Using an app or internet during the fair is not required.

After the Fair

The next day, you'll get a report with information about all of the colleges that scanned you. You'll also start receiving information directly from the colleges.

***Registering with STRIVEFAIR is OPTIONAL and not required by the Freehold Regional High School District.** Please review [StriveFair's Terms and Conditions by clicking here.](#) If you have any questions, please visit your Guidance Office.
