Honors US History & Cultures - Introduction

Introduction

Course Philosophy

Honors United States History and Cultures is designed to help prepare students for the Advanced Placement examination in American history while keeping in spirit with the philosophies of the Freehold Regional High School District Humanities Learning Center. The scope of the course ranges from historiography, the motives for exploration, including a brief overview of the Renaissance, through the Reconstruction period.

Course Description

In this course an emphasis is placed on strong mode of inquiry, critical examination of primary source documents, including art and literature, to examine history, as well as the study of how other cultures, including Native American, African, European, Asian and Caribbean have contributed to the American identity. Emphasis also is placed on writing and technology skills through the incorporation of a position paper, an annotated bibliography project and writing portfolio to showcase students’ best-written works and an interdisciplinary approach with the Process Skills II technology course.

Honors US History & Cultures - Unit 01

Unit I: Historiography

Enduring Understandings:
Historical events impact and shape modern society.
Our values, biases, and experiences play a role in how we study history.
Literature, art and music capture the essence of historical periods and cultures.

Essential Questions:
What is history?
How do historians gather evidence, and what are the limitations of this evidence?
How can we use the study of history to assist us in facing modern challenges?
To what extent is the study of history subjective? To what extent is it objective?
What is bias?
How does bias skew the impact, meaning, or effectiveness of a source?
Does art reflect culture, or does culture reflect art?
How do literature, art and music capture the essence of historical periods and cultures?

Unit Goals:
At the conclusion of this unit, students will be able to:
1. Recognize bias in primary and secondary sources and identify the audience for which a document was intended.
2. Explain how historians use artifacts, artwork, music and literature to create understandings of the past.

| **What is history and how does one obtain historical information?** | - Define historiography, culture, bias, perspective, primary and secondary sources  
- Analyze how historians use artifacts and documents to create understandings of the past  
- Identify and explain how the interpretation of historical events or facts can vary by individual | - Current textbook and resources  
- Internet  
- Magazines  
- Newspapers  
- Videos  
- Parents  
- Community resources | - Lecture/class discussion  
- Students will list all historical events that have occurred in their lifetime with the purpose of demonstrating that every day events influence and create history  
- Using a current event article, foster a discussion about how that particular event may be remembered in history as a means to discuss how historical interpretation may vary by individual  
- Ask students to examine two primary source documents about the same event, but written by two different people  
- Discuss the differences of each testimony | - Written tests and quizzes  
- Worksheets  
- Project  
- Article summaries |
| **What is historical evidence and how is it useful to the study of history?** | - Utilize primary and secondary sources to examine a historical event  
- Determine perspective and audience for historical documents  
- Evaluate different examples of historical evidence for both information and its limitations  
- Draw conclusions on contemporary topics based on historical evidence, including art | - Current textbook and resources  
- Internet  
- Magazines  
- Newspapers  
- Videos  
- Parents  
- Community resources | - Lecture/class discussion  
- Using the jigsaw format, students are given documents from various sources, including European and Native American sources, which they must then interpret and create a historiography of the event  
- Students are given brown bags with "artifacts" from modern American life that may be difficult to recognize  
- Students attempt to reconstruct information about the owner of the objects, its purpose, and its meaning  
- Debate whether historical evidence can be obtained from art and then examine several paintings from a variety of time periods to test the conclusions of the debate  
- Compare and contrast student responses to different topics relating to historiography | - Participation rubric  
- Journal assessments  
- Project  
- Oral presentation |
What is culture?

Define each element of culture, including family, art, language, religion, customs, economics, and government.

Identify and explain the impact of ethnocentrism.

Determine whether culture creates history or history creates culture.

Analyze modern American culture to determine the historical foundation for these trends.

SOC.9-12.6.1.12 A.1 Analyze how historical events shape the modern world.
AR.9-12.1.1 All students will use aesthetic knowledge in the creation of and in response to dance, music, theater, and visual art.

Differentiation

Students with individual learning styles can be assisted through adjustments in assessment standards, one-to-one teacher support, additional testing time, and use of visual and auditory teaching methods.

The teacher may consider using fill-in notes for those with auditory processing difficulties as a way to reduce the volume of note-taking or offering class members various resources rather than asking those students to locate the materials appropriate for a particular assignment.
**Technology**

The Honors US History and Cultures teacher might consider facilitating the use of technology in the following ways:

- Create a web quest where students must utilize the internet to obtain up-to-date information about particular historical events.
- Become familiar with various news organizations and have students demonstrate competence in locating current events articles from reputable sources.
- Create a web-based project where students must examine various news and multimedia websites to examine bias and truthfulness in reporting and the gather of historical information.

---

**College and Workplace Readiness**

The entirety of this unit facilitates college and workplace readiness as historiography is a college level topic and skill set. Every activity in this unit encourages analytical/critical thinking skills, bias investigation and advanced oral debate skills.

### Technology

The Honors United States History and Cultures teacher might consider facilitating the use of technology in the following ways:

Create a web quest where students must utilize the internet to obtain up-to-date information about particular historical events, such as the Black Death or the settlement of Jamestown.

Create a web-based project where students must examine various news and multimedia websites to examine bias and truthfulness in reporting and the gather of historical information.

### College and Workplace Readiness

The teacher may consider assigning an oral report or speech assignment to enhance presentation skills, and also examine primary source documents to further critical thinking.

**Differentiation**

Students with individual learning styles can be assisted through adjustments in assessment standards, one-to-one teacher support, additional testing time, and use of visual and auditory teaching methods.

The teacher may consider using fill-in notes for those with auditory processing difficulties as a way to reduce the volume of note-taking or offering class members various resources rather than asking those students to locate the materials appropriate for a particular assignment.

**Technology**

The Honors US History and Cultures teacher might consider facilitating the use of technology in the following ways:

Create a web-quest where students must utilize the internet to obtain up-to-date information about particular historical events.

Become familiar with various news organizations and have students demonstrate competence in locating current events articles from reputable sources.

Create a web-based project where students must examine various news and multimedia websites to examine bias and truthfulness in reporting and the gather of historical information.

Create a multimedia presentation that details a historical event specific to colonization or the pre-Revolutionary era.

Find and present current events/news videos that compare or contrast to events specific to this era.

**College and Workplace Readiness**

The Honors US History and Cultures teacher can enhance college and workplace readiness by focusing on the following skill sets:

- Analytical/critical thinking skills
- Determining bias in a literary work, piece of work, or primary source
- Oral debate skills
- Argumentative writing
Unit IV: The American Revolution, 1760-1783

Enduring Understandings:
- Geography is linked to culture, social structures, as well as political and economic systems.
- The values of the majority must be weighed against the ideals of the minority.
- Revolution leads to profound cultural, economic, and political change.
- “Life, liberty, and the pursuit of happiness” is a cornerstone of the American ideology.
- Historical events impact and shape modern society.
- Literature, art and music capture the essence of historical periods and cultures.

Essential Questions:
- What is revolution and why do people revolt?
- To what extent did the Enlightenment impact America?
- To what extent is America dependent upon foreign nations?
- How do geography and other environmental factors influence culture?
- How do regions and regional identities develop?
- To what extent is modern America still defined by regional interests?
- To what extent is the study of history subjective? To what extent is it objective?
- What is bias?
- How does bias skew the impact, meaning, or effectiveness of a source?
- How can the government ensure that all citizens have equal opportunity?
- How can America overcome the social, economic, and political obstacles that are in the way of true equality in modern American society?
- To what extent are the ideals of this nation still relevant in modern society?
- What is history?
- How do historians gather evidence, and what are the limitations of this evidence?
- How can we use the study of history to assist us in facing modern challenges?
- Does art reflect culture, or does culture reflect art?
- How do literature, art and music capture the essence of historical periods and cultures?

Unit Goals:
At the conclusion of this unit, students will be able to:
1. Synthesize prior knowledge with interpretation of political cartoons and other key documents to demonstrate understanding of the move toward independence.
2. Understand the Revolutionary War is the culmination of a series of complicated events and the evolution of the philosophies of the Enlightenment.

Have students debate what would have happened if the French had not entered the Revolutionary War. Then, have students research via the Internet foreign involvement in our nation’s history. Have students evaluate the incidents in terms of whether they were or were not in the nation’s best interest during a Socratic style seminar.

Divide students into groups of 5 students and have each group select a different current event in which America is involved in a foreign conflict, or event. Have the students then make a persuasive presentation both for American involvement and also for American neutrality to determine the effects of both positions.

Unit VI: The Early Presidents, 1780-1820

Enduring Understandings:
Geography is linked to culture, social structures, as well as political and economic systems. Expansion, innovation and communication can all lead to profound cultural, economic, and political change. Our values, biases, and experiences play a role in how we study history. The Constitution is a living document. Literature, art and music capture the essence of historical periods and cultures.

Essential Questions:
What leads people to question authority? What is the role of government in the United States? How do American values reflect the moral and cultural ideas of other nations? How should one nation accommodate the competing interests of all of its members? To what extent, if any, is it just to suspend the rights of a minority group in the interest of the majority? How do geography and other environmental factors influence culture? How do regions and regional identities develop? To what extent is modern America still defined by regional interests? Does exploration lead to progress or problems? What were the long term and short-term implications of expansion and innovation? To what extent is the study of history subjective? To what extent is it objective? What is bias? How does bias skew the impact, meaning, or effectiveness of a source? Under what circumstances, if any, should the Constitution be changed? Does art reflect culture, or does culture reflect art? How do literature, art and music capture the essence of historical periods and cultures?

Unit Goals:
At the conclusion of this unit, students will be able to:
1. Identify and explain key events in the growth of sectionalism and nationalism in the early 1800s as they relate to the growth of the US. 2. Evaluate the actions of the early presidents as conflicts emerged in the early United States to determine the impact of these actions.

### Differentiation

Students with individual learning styles can be assisted through adjustments in assessment standards, one-to-one teacher support, additional testing time, and use of visual and auditory teaching methods. The teacher may consider using fill-in notes for those with auditory processing difficulties as a way to reduce the volume of note-taking or offering class members various resources rather than asking those students to locate the materials appropriate for a particular assignment.

### Technology

The Honors US History and Cultures teacher might consider facilitating the use of technology in the following ways:

Create a web quest where students must utilize the internet to obtain up-to-date information about particular historical events. Become familiar with various news organizations and have students demonstrate competence in locating current events articles from reputable sources. Create a web-based project where students must examine various news and multimedia websites to examine bias and truthfulness in reporting and the gather of historical information.

### College and Workplace Readiness

The teacher may consider assigning an oral report or speech assignment to enhance presentation skills, and also examine primary source documents to further critical thinking.
Enduring Understandings:
Geography is linked to culture, social structures, as well as political and economic systems.
The values of the majority must be weighed against the ideals of the minority.
Conflict over social and moral norms lead to both progress and problems.
“Life, liberty, and the pursuit of happiness” is a cornerstone of the American ideology.
Historical events impact and shape modern society.

Literature, art and music capture the essence of historical periods and cultures.

Essential Questions:
Was the Civil War inevitable or preventable?
To what extent is tension created by social change positive for society?
In what ways can progress cause social problems?
How do American values reflect the moral and cultural ideas of other nations?
How do geography and other environmental factors influence culture?
How do regions and regional identities develop?
To what extent is modern America still defined by regional interests?
How should one nation accommodate the competing interests of all of its members?
How does growth create conflict?
To what extent was war necessary for America to maintain its independence?
To what extent, it any, is it just to suspend the rights of a minority group in the interest of the majority?
How can the government ensure that all citizens have equal opportunity?
How can America overcome the social, economic, and political obstacles that are in the way of true equality in modern American society?
To what extent are the ideals of this nation still relevant in modern society?
What is history?
How do historians gather evidence, and what are the limitations of this evidence?
How can we use the study of history to assist us in facing modern challenges?
Does art reflect culture, or does culture reflect art?
How do literature, art and music capture the essence of historical periods and cultures?

Unit Goals:
At the conclusion of this unit, students will be able to:
1. Evaluate the conflicts created by settlement of the West and propose various solutions to those conflicts from the perspectives of those involved.
2. Describe the failure of compromises prior to the Civil War to evaluate the effects of those compromises.
