Course Philosophy

The Advanced Placement United States History course is designed to provide students with the analytical skills and factual knowledge necessary to critically analyze and evaluate major themes in American history from 1890 to the present day. Students in the Advanced Placement U.S. History class will study major historical themes and analyze their impact on modern American society. These themes include politics and citizenship, economic, reform, and environment transformations, religious movements, demographic changes, globalization, the American identity, as well as culture and war and diplomacy. Furthermore, students in this course will explore and examine different historical interpretations and perspectives as they become aware of the significance of historical events on different segments of American society as well as the global community. Upon completion of this course students will emerge with the knowledge and skills to be successful on the Advanced Placement exam, as well as informed individuals who are able to meet the demands of life beyond the classroom in the twenty-first century.

Course Description

In the Advanced Placement United States History course, students will learn to assess historical materials, including their relevance to a given interpretive problem, their reliability, and their importance, as well as to weigh the evidence and interpretations presented in historical scholarship. The advanced placement U.S. History course teaches students to develop the skills necessary to arrive at conclusions on the basis of informed judgment and to present their ideas clearly and persuasively. Additionally, the Advanced Placement U.S. History course is geared towards the twenty-first century learner, as students will interact with various forms of technology throughout the course, including online research databases, Moodle courseware, and web 2.0 applications.

**Suggestions on how to differentiate in this unit:**

- A wide variety of assessments and strategies complement the individual learning experience.
- Teacher may also incorporate visual and/or auditory stimuli to appeal to the different learning styles of the students in the class.
**Enduring Understandings:** America is part of a global community. Geography and social interaction impact culture and facilitate demographic change. Societal values are reflected in political structures.

**Essential Questions:**
- What political and economic factors motivated America to expand its role overseas?
- What was America’s role in imperialistic competition in Latin American and Asia?
- How is America involvement in foreign affairs often an ideological crusade to spread and/or preserve democracy?
- How did political leaders bring a new energy and assertiveness to American foreign policy during the age of imperialism?
- How did the Spanish American War facilitate reconciliation of the North and South?

**Unit Goals:** Students will be able to explain that a number of political and economic forces sparked American imperialism and expansion overseas in the late 1890s.

Students will be able to explain the new role of the United States in the international arena.

**Duration of Unit:** 2-3 weeks

**NJCCCS:** 6.1.12.B.6.a; 6.1.12.D.6.b

Unit #4: World War I

**Enduring Understandings:** America is part of a global community.  
Civil liberties may be limited during times of national crisis.  
Nationalism is influenced by individual perception and public attitudes in response to dramatic events.  
Societal values are reflected in political structures.

**Essential Questions:**  
How is American involvement in foreign affairs often an ideological crusade to preserve democracy?  
How and why had the United States attempted to isolate itself from foreign involvement in wars?  
Why are traditional civil liberties challenged during wartime?  
What role does propaganda play in uniting a nation?  
What factors and ideals prompted the vision to create an international peacekeeping organization based on respect and self-determination?

**Unit Goal:** Students will be able to evaluate America’s initial reluctance to enter World War I and then ultimate participation that turned into a massive voluntary war effort, at some cost to civil liberties.

**Enduring Understandings:**  
What is popular is not always moral.  
Societal values are reflected in political structures.  
Ideological shifts and conflicts prompt political, economic, and social change.

**Essential Questions:**  
How did nativist feelings and concerns over the spread of communism impact American domestic policies in the 1920s?  
How do culture and counterculture movements influence American policies and societal values?  
How have challenges to traditional, cultural, social, and economic ideas facilitated a culture of conformity and conflict in the 20th century?

**Unit Goal:**  
Students will be able to assess the move towards isolationism America took after WW1, as well as the social conformity and conflict of the 1920s and the consumer prosperity that engulfed the nation on the domestic front.

Enduring Understandings: Ideological shifts and conflicts prompt political, economic, and social change. Political parties evolve over time.

Essential Questions: What accounts for the ideological shifts and fluctuation in confidence in the government that occurred during the Great Depression and the New Deal? How does the structure and impact of political parties change over time in regards to domestic and foreign policies? How has the role and responsibility of the presidency expanded?

Unit Goals: Students will be able to explain how the superficial prosperity and laissez-faire government styles of the 1920s led to a severe prolonged depression that devastated the American economy. Students will be able to evaluate the extent of the success of the New Deal in combating the depression through programs designed to bring about relief, reform, and recovery.

Freehold Regional High School District  
Advanced Placement United States History  
Unit #7: World War II

**Enduring Understandings:** Geography and societal interaction impact culture and facilitate demographic change.  
America is part of a global community.  
Nationalism is influenced by individual perception and public attitudes in response to dramatic events.  
Minority movements/groups can have a global impact.  
Military outcomes cannot be predicted.

**Essential Questions:**  
How have war, industrialization, and invention fundamentally transformed the social, political, cultural, and economic landscape of the United States?  
How is American involvement in foreign affairs often an ideological crusade to preserve democracy?  
How and why has the United States become involved in foreign affairs?  
What role does propaganda play in uniting a nation?  
How did WWII open up new opportunities for women and minorities?  
How have individuals altered the course of history?  
What factors contribute to military strategy?

**Unit Goals:**  
Students will be able to assess the reasons why the United States sought to isolate itself from the conflicts in Europe in the mid-1930s.  
Students will be able to evaluate America's moves towards involvement in World War II and the long term and short term impact of American led Allied victory.  
Students will be able to explain how American quickly and efficiently carried out a war mobilization effort that changed the social and economic aspects of American society.

*Access to Facts on File* | Have students read excerpts from the Nye Committee's findings after WWI and the "merchants of death" to complete a reaction paper as to why isolationism in the 1930s was strongly aimed at the factors that supposedly led the United States into WWII?  
Have students pretend they are an isolationist or an internationalist between 1939 and 1941. Have students support or reject FDR’s strategy of increasing aid at each stage of WWII, but never so rapidly as to hand the isolationists a political victory. Then have students participate in a debate using their research.  
Have students view the TLC documentary, *Pearl Harbor: Seven Views of Defiance* and write a reaction to the reasons for the attack and U.S. involvement in the war.  
Have students view maps and primary sources to complete an essay that focuses on explaining the strategic military decisions of the war, including emphasis on the fact that Americans and the Allies were essentially fighting two wars that required different strategies – such as collaboration and cultural differences.  
Divide the class into groups. Assign each group a topic to research in regards to the social changes brought about due to WWII. Topics should include women, African Americans, Japanese Americans, Native Americans, and Mexican Americans. Have groups present their findings to the class.  
Have each student find a propaganda poster from WWII. Have students print out their propaganda poster and write a one page explanation/analysis of the political cartoon they selected. Share posters and analysis with the class. | Written tests and quizzes
