

FREEHOLD REGIONAL HIGH SCHOOL DISTRICT

8th Grade Orientation Program

The FRHSD will host 8th Grade Orientation programs for parents and students at each of our six high schools. Each program will provide valuable information about the school, mission and philosophy, academic offerings, course registration process, and the educational and extra-curricular opportunities. An additional program will be offered for parents of special education students prior to the orientation program. If you have any further questions or concerns, please reach out to the respective high school guidance supervisor.
