

Who do we work with?

Individuals who are:

- At least 21 (or who will soon be 21).
- Eligible for services through the Division of Developmental Disabilities.
- Are enrolled in the Supports Program (SP), Community Care Program (CCP; formerly known as the Community Care Waiver or CCW), or who are transitioning to fee-for-service.

KISS NJ

About Us

At Keeping Independence Services and Supports, we know that figuring out how to best support the wellbeing and life goals of individuals with developmental disabilities can be complicated and frustrating. Let our knowledgeable, compassionate, and experienced support coordinators help your loved one connect with services that will maximize independence and help reach life goals!

Support Coordination

**Keeping Independence
Services & Supports**

100 Horizon Center Blvd.
Hamilton, NJ 08691

Serving Central NJ

We serve the following counties (highlighted above): Union, Somerset, Middlesex, Mercer, Monmouth, Ocean, Burlington, Camden, and Atlantic.

Our support coordinators live in or right next to the counties they serve, which makes it easier for them to stay up-to-date with available local service providers!

Finding and maintaining the right services is hard...

Whether we're speaking about the Community Care Program (CCP) or the Supports Program (SP); whether it is individuals living with family who are confronting the confusing process of aging into the 21+ system, those living in a group home, or those living on their own; we can help find creative, out-of-the-box solutions to make the most of available resources.

We pride ourselves on maintaining excellent communication and going the extra mile.

Keeping communication open.

We believe that the foundation of a good network of support is solid, consistent communication.

We are here to help when you need it.

Helping is what we do, and we are passionate about it. We put in that extra effort, even if it means meetings on the weekends or outside of normal business hours. Our Support Coordinators work as a team to make sure our clients get the support needed.

NJ DDD Support Coordination

As Support Coordinators, our job is to connect individuals with developmental disabilities with services and resources in the community. This includes services funded by the Division of Developmental Disabilities (DDD), but we are here as the first line of support for a wide range of issues, from housing to Medicaid and beyond.

Our Support Coordinators all have extensive experience working with the DDD population, and we have extensive experience with the behind-the-scenes work that allows our clients to access services smoothly.

As an agency released to approve our own plans, we have demonstrated a consistently high level of quality in our service plans. Just as important, because we approve our own plans, services can start and be modified quickly, without waiting for a week or more for DDD approval.
